

A Moment Away

It never ceases to amaze

The things that happen day to day

Who ever thought we'd wind up here

Without a plan or path that was clear

Why is it always a moment away?

Why are we always a moment away?

Gone forever, come what may

Always a moment away

Sometimes it seems the dragon wins

And we're being punished

for someone else's sins

No matter how long the battle lasts

Suddenly it will be a thing of the past

Why is it always a moment away?

Why are we always a moment away?

Gone forever, come what may

Always a moment away

We try to keep our balance somehow

Walking the wire across the here and now

Why is it always a moment away?

Why are we always a moment away?

Gone forever, come what may

It's always a moment away
