

a little something

**I've got a little something**

**A little something for you**

**I've got a little something**

**A little something for you**

**You don't know what it is**

**But you think you do**

You'll never see it coming

It will be a big surprise

When what's between the lines

Hits you right between the eyes

Brought to you courtesy of

The Master of disguise

**I've got a little something**

**A little something for you**

**I've got a little something**

**A little something for you**

**You don't know what it is**

**But you think you do**

Are you turning the corner

Or going around the bend?

The crisis of the moment

Doesn't ever seem to end

You never do recognize

My handiwork my friend

**I've got a little something**

**A little something for you**

**I've got a little something**

**A little something for you**

I'm the whisper in your ear

An image just out of sight

The dream you can't remember

In the middle of the night

**I've got a little something**

**A little something for you**

**I've got a little something**

**A little something for you . . .**
